The lessee is responsible for the timely identification of technical failures in order to prevent worse.

The lessor shall ensure that there are sufficient service parts that are subject to wear and tear during the event, such as tires and brake pads. Exception to this duty of care are parts that need to be replaced or repaired as a result of damage caused by collisions or other external mechanical forces, during the event. Rental price of the Porsche is determined based on consumption of 1 set of tires and 1 set of brake pads. Additional consumption will be charged afterwards. The lessor will provide the lessee with a written quotation before the start of the repair and the lessee will approve it within 48 hours or offer an alternative from a damage repair company recognized by the lessor.

Damage also includes braking a "flatspot" on a tyre, meaning a flat side on the tire due to excessive blocking of the wheel. If the Porsche Experience track car is damaged by the lessee in such a way that it is considered a total loss, the lessee must pay the lessor compensation within 14 days in the amount as stated in the data box.

The lessee will at all times be responsible for all damage caused to the site and all property on the site. If, in a collision between two cars, the blame lies with one person, he/she accepts that the costs for this damage will be borne by him/her. If damage is caused to the participant's own vehicle, the circuit, the terrain, the crash barriers and/or fences, or the plants, the costs of this will be charged in full to the participant.

In the event of an incident involving several vehicles, each participant, regardless of whether he is the cause of the incident or not, pays the costs to his/her own vehicle/property. In the event of incidents such as a collision, competitor A is responsible for car A, and competitor B for car B. The competitor hereby declares that he is aware of this responsibility on the track.
